VAMOS SCOTLAND

Vamos Scotland works to promote creativity in all its forms

Although initially Vamos Scotland was created to promote Spanish culture abroad and the services were focused on artist as a target audience, over the years, the entity has matured its objectives, and the original purposes have been supplemented, with the services to entrepreneurs, supporting and providing them opportunities in the cultural field.

We support talented individuals in the cultural and creative sector willing to start their own business idea in UK. Moreover, we help aspiring entrepreneurs the chance to learn from experienced entrepreneurs running small businesses in other European Countries.

With a long experience in the Erasmus Entrepreneurs Programme, here some of their most successful relationships.
